Sun Pharma begins trial on dengue drug for Covid

Trial of AQCH to be conducted across 12 centres on 210 patients in India

SOHINI DAS
Mumbai, 5 June

India's largest drugmaker Sun Pharmaceutical Industries said on Friday that it has commenced phase II clinical trial of AQCH, a plant-derived drug that was originally developed for dengue, to see if it can potentially treat Covid-19.

The trial will be conducted across 12 centres in India on 210 patients. This is also the first phytopharmaceutical drug (plant-based) that the Drug Controller General of India (DCGI) has approved for clinical trials for Covid-19. The company said the results of the trial are expected by October.

"Human safety study of AQCH has already been completed and the drug has been found safe at the recommended dose for phase II study," it said.

Sun Pharma stock was down marginally at the end of day's trade on the BSE.

Dilip Shanghvi, managing director of Sun Pharma, said, "This is the first phytopharmaceutical drug approved for clinical trials by the DCGI as a potential treatment for Covid-19. AQCH has shown anti-SARS-CoV-2 effects in in-vitro studies conducted in collaboration with ICGEB, Italy. These results combined with information on mechanism of action through in-vitro and small animal studies give us the confidence to evaluate this potential treatment option for Covid patients."

Serum Institute invests \$100 mn in vaccine plant

SOHINI DAS & SAMREEN AHMAD
Mumbai/Bengaluru, 5 June

Serum Institute of India (SII), which has partnered British drug maker AstraZeneca to supply a billion doses of University of Oxford's potential Covid-19 vaccines to low and middle-income countries, is ready with the facility to start making a few million doses even before the clinical trials get over, a top company executive said on Friday.

"Oxford vaccines will be made and packaged here in India. We are spending more than \$100 million for this facility," said Adar Poonawalla, chief executive, SII.

AstraZeneca has a licensing agreement with SII to supply a billion doses of the potential Covid-19 vaccines, with a commitment to provide 400 million before the end of 2020. If all goes according to the plan, India could have its first set of Covid-19 vaccines by the end of the year. AstraZeneca's Executive Director and Chief

Executive Officer Pascal Soriot has said the company will make no profit from the drug during the time of pandemic.

Poonawalla clarified that until the trials are completed successfully for safety and efficacy, vaccines will not be distributed either in India or anywhere else in the world.

"Having said that, we will start making a few millions of doses and stockpiling it at personal risk."

Oxford University, which is developing the vaccine with AstraZeneca, has announced the start of a Phase II/III trial of AZD1222 in about 10,000 adult volunteers. Other late-stage trials are due to begin in a number of countries. The British drug maker last month secured over \$1 billion in funding from the US to develop the vaccine.

Meanwhile, India has been very supportive to bring the vaccine here, Poonawalla claimed. "The government and its various departments have been funding certain clinical trials for the recombinant BCG vaccine and potentially the Covid-19 vaccine."

CEO Adar Poonawalla says vaccines will not be distributed until the trials are completed successfully

research institutes. In 2016, the firm started working on it with the Department of Biotechnology — International Centre for Genetic Engineering and Biotechnology (DBT-ICGEB) and the Council of Scientific and Industrial Research- Indian Institute of Integrative Medicine (CSIR-IIIM). In April, the company submitted a proposal to DCGI to conduct clinical trials.

Renu Swarup, secretary of Department of Biotechnology, Ministry of Science and Technology, said, "Our effort to develop a safe, effective and affordable drug against dengue started about 13 years ago. The collaborating team quickly initiated studies for the development

of a drug against Covid-19. I wish the collaborating team success in the conduct of the clinical trial against Covid-19 and for the development of phytopharmaceutical drugs against other infectious diseases."

Recently, Sun Pharma got the nod from DCGI to initiate clinical trials for nifamostat mesilate on Covid patients. These will be phase II clinical trials on about 40 patients. This drug is approved in Japan for improvement of acute symptoms of pancreatitis as well as for treatment of DIC (Disseminated Intravascular Coagulation). It is an anti-coagulant drug that has potential anti-inflammatory and antiviral activities against Covid-19.

Hyderabad API maker develops Favipiravir

Hyderabad-based active pharmaceutical ingredients (APIs) firm Raghava Life Sciences on Friday said it was in talks with at least eight buyers, including a couple of overseas companies, to supply the antiretroviral Favipiravir, which is being tested for treatment of Covid-19 in several countries.

The company started developing Favipiravir in March after China indicated that the drug could be a potential treatment for the infection based on initial results, said Director P Lohit Reddy.

L&T logs 14% fall in Q4 PBT

AMRITHA PILLAY
Mumbai, 5 June

Engineering conglomerate Larsen & Toubro (L&T) on Friday reported a 14 per cent year-on-year (YoY) drop in consolidated profit before tax (PBT) at ₹4,249.7 crore for the quarter ended March 31 (Q4FY20). This was also lower than the consensus estimate of ₹4,567.2 crore, according to Bloomberg poll of analysts.

The company did not provide order inflow and revenue guidance for the current financial year because of Covid-19.

The company does not expect revival of capital expenditure in the private sector this year. SN Subrahmanyam, chief executive officer and managing director for L&T, said sales missed so far because of the Covid-19 disruption would be around ₹15,000-17,000 crore. "We know April-May was tough. We are gathering our thoughts and will wait for more time before we come up with guidance," he said.

In its statement, the compa-

ny said, while the initial quarters of FY21 are expected to be adversely affected, it expects growth revival in the later part of the financial year, assuming things get better from here.

On labour availability, he said L&T has 40 per cent of its usual labourers on site. "Around 100,000 labourers are yet to return, which should take 15-30 days. We experience this every year as labour returns home for Holi and for harvest season."

On whether L&T will look to reduce costs, he said: "L&T has a highly disciplined, hard working set of individuals. If they feel the company requires them to make some sacrifices they will do that. At the moment, that is the way we look at it."

For the quarter, L&T's profit after tax (PAT), including the PAT from discontinued operations, was ₹3,197 crore, a decline of 6 per cent YoY, as tax outgo fell by 22 per cent. Thus, PAT was ahead of expectations of ₹3,062 crore.

Revenue from operations for Q4, when the impact of Covid-19 on global economy started showing, was ₹44,245 crore, witnessing a 2 per cent YoY rise and better than Street expectations

HUL CMD's salary up 2.86% in FY20

VIVEAT SUSAN PINTO
Mumbai, 5 June

Hindustan Unilever's (HUL's) Chairman and Managing Director (CMD) Sanjiv Mehta (pictured) took home a larger pay cheque for the 2019-20 financial year even as the company was fighting Covid-19 challenges during the period.

HUL's FY20 annual report, released on Friday, shows that Mehta's gross salary or total remuneration was ₹19.42 crore, up 2.86 per cent from a year earlier. In FY19, Mehta had taken home a remuneration of ₹18.88 crore, which was lower by 2.52 per cent over the previous year.

While his FY20 salary and allowances, bonus, and provident fund contribution have grown by 41.59 per cent, 21.24 per cent and 4.65 per cent, respectively, from a year ago, perquisites have nearly halved to ₹3.2 crore from ₹6.92 crore the previous year. In FY19, Mehta's bonus had halved versus the

year-ago period.

HR experts say performance-linked bonus and perks for a firm's top executives are decided by its board of directors and is based on achievement of certain performance parameters.

HUL closed FY20 with sales of ₹38,273 crore and a profit of ₹6,738 crore, growth of 1.62 per cent and 11.63 per cent each from a year ago. The median remuneration of HUL's employees increased by 4.26 per cent only in FY20 and Mehta's paycheque was 151 times the median remuneration of employees for the year.

Mehta said, in his address to shareholders in the annual

report, that the company saw disparate trends within the domestic fast-moving consumer goods, which had impacted its business.

There was a significant shift, Mehta said, in discretionary spends due to Covid-19 and this had hit the beauty and personal care division. "Despite the challenges, categories such as skin, hair and oral care delivered good growth and Dove and Pears led the premiumisation agenda in skin cleansing," he said.

HUL's on-shelf availability, Mehta said, was also at an all-time high with the customer case fill on time at over 95 per cent during the year.

Tata Steel, SKF, Schaeffler units colluded on bearings prices: CCI

REUTERS
New Delhi, 5 June

The Competition Commission of India (CCI), the antitrust body, has ruled that units of Sweden's AB SKF, Germany's Schaeffler AG, and Tata Steel, along with local firm National Engineering Industries, are guilty of colluding and fixing prices of vehicle ball bearings.

The CCI began a probe into the matter in 2017 after receiving infor-

mation that the entities had been colluding on bearings prices from 2009-2014, to pass on higher raw material costs to customers in the auto sector.

In a 36-page order issued on Friday, the CCI said it "holds NEL, Schaeffler, SKF and Tata Bearing guilty" of contravening the country's antitrust laws.

However, the CCI added it had

decided not to impose a penalty, saying the "ends of justice would be met if the parties cease such cartel behaviour and desist from indulging in it".

The order showed the case was initiated after Schaeffler in 2017 filed a so-called leniency application, in which companies seek lesser penalties and make disclosures about their activities.

National Engineering Industries also filed a similar plea under the leniency programme, the CCI order said. Tata Steel's bearings division, SKF, Schaeffler and National Engineering Industries did not immediately respond to a request for comment.

Reuters reported last year that CCI's investigations arm concluded that these companies had contravened antitrust law by discussing and agreeing prices.

Toyota to hike price of Camry Hybrid & Vellfire models

Toyota Kirloskar Motor (TKM) on Friday announced it would increase the price of Camry Hybrid Electric Vehicle and The Vellfire with effect from next month.

It has been necessitated due to the "substantial rise" in exchange rate, the company said in a statement.

"As of now, the extent of the price hike has not been decided," a TKM official said.

Camry Hybrid is touted as one of Toyota's flagship models amongst self-charging electric vehicles.

"The Vellfire, latest launch by TKM in India, also stands out for its ultra-luxurious, powerful and eco-advanced performance backed by low fuel consumption and carbon footprints," it said.

Ikea Hyderabad store to reopen from June 8

Ikea India, part of the Ingka Group, will be reopening its store in Hyderabad from June 8 with strict measures in place to ensure safety of visitors, the Swedish furniture maker said on Friday.

Aurelie Raimon, Hyderabad Store Manager at Ikea, said: "As we reopen our store, health and safety of co-workers and customers are our topmost priority. We have put strong safety measures throughout the store, so that our customers and co-workers feel safe and confident coming back to the store. **PTI**
