Details of instruments/facilities in Annexure-1.

*The overall market borrowing programme (MBP) for FY21 is ₹72,330.37 crore.

**The overall MBP for FY24 is ₹1,55,500.00 crore.

^Long-term perpetual debt of up to ₹3,000.00 crore has been carved out of MBP FY21 of ₹72,330.37 crore.

^^ Long-term perpetual debt of up to ₹5,000.00 crore has been carved out of MBP FY24 of ₹1,55,500.00 crore.

@ amount o/s for STLs of less than 6 months aggregating to ₹20,000 crore and non-fund based limit of ₹1,000 crore shall not form part of the market borrowing programme of ₹1,70,000 crore

Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has assigned ratings of 'CARE AAA; Stable / CARE A1+' to the market borrowing programme of REC Limited (REC) aggregating to ₹1,70,000 crore. CARE Ratings has also assigned ratings of 'CARE AAA; Stable / CARE A1+' to the short term instrument aggregating to ₹20,000 crore and non fund based facility aggregating to ₹1,000 crore.

The rating reaffirmations continue to draw comfort from the company's strategic importance to the Government of India (GoI) for developing of power infrastructure in the country, and the quasi-sovereign status of REC that allows it to have a diversified resource profile at competitive borrowing rates. Ratings also take into consideration the improving profitability and capitalisation profile, and better asset quality, despite portfolio vulnerability due to exposure towards the private sector and weak state power utilities (SPUs), and the high sectoral concentration risk.

The rating for the perpetual debt has been reaffirmed factoring in comfortable cushion of over 10% as on December 31, 2024, from the regulatory benchmark for the capital adequacy ratio (CAR), with a CAR of 25.33% as on December 31, 2024, largely unchanged from 25.82% as on March 31, 2024. Reaffirmation also factors in the consistent improvement in profitability, with comfortable return on total assets (RoTA) at 2.6% for 9MFY25 as against 2.8% in FY24.

REC is majority owned by Power Finance Corporation Limited (PFC; rated 'CARE AAA; Stable/CARE A1+'), post completing the acquisition transaction from GoI on March 28, 2019, with 52.63% stake as on December 31, 2024. PFC is majority owned by the GoI. CARE Ratings Limited (CARE Ratings) expects REC to continue receiving operational and financial support from PFC and GoI given its strategic importance to the GoI and its role in the development of the power sector.

Going forward, continued sovereign ownership (indirectly through PFC) and support from GoI in maintaining a comfortable capital structure and asset quality will remain the key rating sensitivities.

Ratings for market borrowing programme (FY15) have been withdrawn on redemption of issuances made under the borrowing programme and confirmation of the same from debenture trustee.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors - Factors that could, individually or collectively, lead to positive rating action/upgrade:

Not applicable.

Negative factors - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Significant change in shareholding pattern and/or dilution in REC's strategic importance as the nodal agency for developing power infrastructure.
- Significant deterioration in the standalone financial metrics.

Negative factors (additional) for the perpetual debt - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Deteriorating capitalisation levels, with cushion over the regulatory benchmark remaining below 5%.
- Weakening profitability levels, with RoTA remaining below 1% on a sustained basis.

Analytical approach:

Standalone; factoring the sovereign ownership (indirectly through PFC) and support from GoI.

Outlook: Stable

CARE Ratings Limited (CARE Ratings) expects that REC will continue to be strategically important to the government and will continue to receive need-based operational and financial support from the parent, PFC.

Detailed description of key rating drivers:

Key strengths

Strategic importance to and strong support from GoI

Up to December 2018, GoI was a majority shareholder in REC, holding 52.85% shares. On March 28, 2019, PFC completed the acquisition transaction, where the stake of GoI was transferred to PFC. Post this transaction, REC became a subsidiary of PFC. As on December 31, 2024, PFC held 52.63% stake in REC.

REC plays a pivotal role in financing power projects from the state and private sectors, being instrumental in strengthening the country's power infrastructure. REC has been designated as the nodal agency by the Ministry of Power (MoP), GoI, for implementing the Revamped Distribution Sector Scheme, and PFC. The scheme's implementation period is five years (FY22 to FY26) with outlay of ₹3,03,758 crore with an estimated Gross Budgetary Support of ₹97,631 crore from GoI. Counterpart funding under the scheme is supported by state government guarantee and direct debit mandate of Reserve Bank of India.

PFC and REC are advised by the MoP to extend their support to distribution companies (discoms) for timely payments of their dues under the Late Payment Surcharge and Related Matters Rules, 2022 (LPS Rules 2022).

As on December 31, 2024, 9% of REC's outstanding loan book was towards LPS, which amounted to ₹48,511 crore, up from ₹39,317 crore as on March 31, 2024, which made 8% of loan. Loans under LPS are entirely guaranteed by the state government and are to be repaid by discoms in 1-4 years, depending on quantum of the loans. In 2024, REC has been appointed as nodal agency for implementing PM Surya Ghar Muft Bijli Yojana. REC is also the nodal agency for the National Electricity Fund, the Financial Restructuring Plan, and the Smart Grid Task Force.

REC has been accorded with the status of Maharatna. CARE Ratings notes the company's strategic importance to GoI for developing power infrastructure in India and expects it to continue in future as well.

Significant market player in the power financing sector

REC's loan book has been consistently growing, with dip in growth rate in FY22 due to subdued demand in the power sector owing to delayed start of projects post COVID-19. With the inception of LPS and Revolving Bill Payment Facility in FY22, picking up momentum in FY23, the company's loan book grew by 17% y-o-y in FY24 reaching a loan book of ₹5,09,371 crore as on March 31, 2024. It further grew by 14% YTD to loan book of ₹5,29,739 crore as on December 31, 2024. As on December 31, 2024, share of loans to discoms formed a majority share in the overall loan book with 40%, followed by loans to generation companies (gencos) forming 27%, infrastructure loan comprising 12%, loans to transmission companies (transcos) forming 9%, loans to renewable energy (RE) companies with 9% share and balance in the form of short/medium term loan.

In Q3FY23, the company forayed into infrastructure sector with ₹1,453 crore exposure forming 0.3% of gross loan as on March 31, 2023. With increasing demand, share of loan in non-power sector has increased to 12% as on December 31, 2024. Although, maximum exposure limit is always restricted to 30% of outstanding loan, subject to 2/3rd new sanctions in a FY towards Power sector. REC's ability to diversify sectors, while keeping its asset quality strong is a key monitorable, as infrastructure lending is a new venture for the company.

With rising share of loans towards RE sector, which are predominantly in private sector, share of overall loan towards private sector increased to 11% as on March 31, 2024, from 9% as on March 31, 2022. Consequently, share of overall loan towards government sector has reduced to 89% as on March 31, 2024, from 91% as on March 31, 2022.

Going forward, CARE Ratings expects REC to continue its growth momentum for the loan book in FY26. Thrust of GoI towards RE will lead to substantial growth in the loan book and its share in the loan book.

Diversified resource base

As a quasi-sovereign financial institution, REC is able to manage a well-diversified resource profile and can mobilise funds at cost effective rates from sources such as external commercial borrowings, international agencies, domestic financial institutions, long-term bonds, bank loans, CP, capital gains tax exemption bonds, infrastructure bonds and tax-free bonds.

REC's borrowings increased by 17% y-o-y to ₹4,45,614 crore as on March 31, 2024, and further to ₹4,89,595 crore as on December 31, 2024, up by 13% YTD. As on December 31, 2024, majority borrowings were from corporate bonds (42%), followed by foreign currency borrowing at 32% (up from 25% as on March 31, 2023), term loan (14%), capital gain bonds (9%) and tax-free bonds (2%). Furthermore, 99% foreign currency exposure is hedged till maturity. The rise in foreign currency exposure is attributed to more competitive borrowing rates than that for domestic borrowings.

Improving profitability metrics

In FY24, REC reported profit after tax (PAT) of ₹14,019 crore, up by 27% y-o-y and in 9MFY25, the company's PAT increased to ₹11,447 crore.

The net interest margin (NIM) remained range bound at 3.3% in FY24. With reduction in cost of funds in 9MFY25, NIM improved to 3.4%. Moderation in cost of fund in 9MFY25 is attributed to increased share of cheaper foreign currency debt (below 6.7% including hedging cost).

With REC having funds availed in foreign currency, currency volatility has caused the fluctuations in the other income over total assets ratio. This, and fluctuations in the fee income due to prepayments and implementation of government scheme, led to increase in other operating and other income ratio to 0.12% in FY24 from negative 0.16% in FY23, which further rose to 0.1% in 9MFY25.

With recoveries received from the non-performing assets (NPA) and no further slippages in FY24, credit cost ratio reduced significantly to negative 0.27% in FY24 from 0.03% in FY23. Although, in 9MFY25, REC has created additional provision against rise in stage 2 assets, leading to increase in the credit cost ratio to 0.06%.

Owing to the wholesale lending model, operating expenses ratio remained low at 0.13% in FY24 against 0.12% in FY23 and 0.13% in 9MFY25.

With increase in other operating and other income ratio and negative credit costs ratio, the RoTA in FY24 improved to 2.8% from 2.5% in FY23. With moderation in credit costs ratio in 9MFY25, RoTA moderated to 2.7% in 9MFY25.

Going forward, CARE Ratings expects profitability to remain healthy with company expecting recoveries against NPAs.

Comfortable capital position

REC's gearing level has been improving since FY21 owing to rise in internal accruals. As on March 31, 2024, gearing improved to 6.72x from 7x a year ago and as on December 31, 2024, it stood at to 6.74x. REC has always been maintaining capitalisation above regulatory benchmark for CAR and Tier I capital. CAR remained similar as on March 31, 2024, with that of as on March 31, 2023, with 26%.

Improving asset quality metrics

REC's asset quality has been improving over the years. Owing to resolution through National Company Law Tribunal and write offs totalling to ₹500 crore, the company reported reduced gross NPA (GNPA) ratio of 2.7% as on March 31, 2024, compared to 3.4% as on March 31, 2023, and GNPA further reduced to 1.9% as on December 31, 2024.

Of the government sector loan, which makes 89% of the loan book as on March 31, 2024, there were no NPAs. Of the private sector loans, loans to gencos and RE companies were classified as NPAs. The NPAs in both sectors have reduced as on March 31, 2024, with 62% of private sector loans to gencos (PY: 65%) and 1% of private sector loans to RE companies (PY: 4%).

Key weaknesses

Exposure to sectoral and borrower concentration risks, notwithstanding the diversification initiated in the non-power sector

Owing to its mandate, REC's operation is concentrated towards power sector, comprising 99.7% of gross loan as on March 31, 2023. In Q3FY23, the company forayed into infrastructure sector with ₹1,453 crore making 0.3% of gross loan as on March 31, 2023. As demand peaks in the sector, share of loan in non-power sector in infrastructure sector increased to 12% as on December 31, 2024. Although, maximum exposure limit is always restricted to 30% of outstanding loan, subject to 2/3rd new sanctions in a FY towards Power sector. It's ability to diversify sectors, while keeping its asset quality strong is a key monitorable aspect, as infrastructure lending is a new venture for the company.

REC was exempted from following single entity/group exposure norms and concentration limits that are applicable to non-banking finance companies (NBFCs) till March 31, 2022. Owing to its business model and strategic importance to GoI, the Reserve Bank

of India (RBI) vide its letter dated August 24, 2022, allowed existing exposure as on August 24, 2022, to run off till maturity without invoking regulatory violation and conform to RBI credit concentration norms regarding new exposure. As an Infrastructure Finance Company (IFC), the total permissible exposure for lending and investing is 30% of Tier-I capital in case of a single borrower and 50% in case of a single group of borrowers, respectively. Borrower concentration continues to make the company's credit profile vulnerable with top 20 customers contributing to 59% of the loanbook as on March 31, 2024, although, reduced from 62% of the loan as on March 31, 2023.

Owing to the mandate for wholesale lending, CARE Ratings expects the customer-wise concentration to persist going forward.

Liquidity: Adequate

REC's asset liability mismatch (ALM) profile is typically characterised by sizeable cumulative negative mismatches in the up to one-year buckets, given the relatively long tenure of the loans extended by it. Per ALM Statement (including the interest component) as on March 31, 2024, REC has negative cumulative mismatches for 1-3 months' time bucket. To mitigate negative cumulative mismatches, the company has sanctioned and unutilised bank lines of ₹11,840 crore from different banks in the short-term tenure. REC's liquidity profile is expected to remain comfortable with its strong financial flexibility, arising from sovereign ownership and diversified funding profile and undrawn sanctioned bank lines. Gaps between outflows and inflows are partially bridged through cash & investment in government securities and sizeable unutilised bank lines.

Environment, social, and governance (ESG) risks

Given that REC is engaged in the lending business, it is exposed to environmental risks indirectly through its portfolio of assets. If entities on whom REC have an exposure faces environmental or regulatory risk, it could translate to credit risks for REC. As a part of its appraisal process for all power projects it finances, REC identifies and assesses the potential environmental risks of the projects. Environmental issues are identified through due diligence, site visits and review of applicable compliances, among others. REC has introduced policies for competitive financing of clean energy projects across the country, including solar, wind, biomass projects and e-mobility. REC's 8% of loan book as on March 31, 2024, is towards RE sector. In terms of governance risk, REC Limited has adequate representation from independent directors.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial services	Financial services	Finance	Non-banking financial company (NBFC)

REC has been incorporated in 1969 under the Companies Act, 1956. In 1998, the company was registered with RBI and classified as an IFC by the RBI in 2010. The company is established to promote and finance projects aimed at integrated system improvement, power generation, promotion of decentralised and non-conventional energy sources, energy conservation, renovation and maintenance, power distribution with focus on pump-set energisation, implementation of GoI schemes. REC assists state electricity boards/power utilities/state governments, rural electric cooperatives and others by providing technical guidance, consultancy services and training facilities for formulation of economically and financially viable schemes. Long-term loans are offered to state, center and private companies for projects. The short-term/medium-term loans are offered to borrowers to power utilities to meet their working capital requirements, including purchase of fuel for power plants, systems, and network maintenance, among others for a tenure of 1-3 years. The company also provides debt refinancing schemes generally available for commissioned projects. It also provides term loan for equipment manufacturing. REC also offers non-fund-based products, including, Letter of Undertaking in lieu of bank guarantee.

REC has a wholly owned subsidiary, REC Power Development and Consultancy Limited, which is the implementing agency for National Feeder Monitoring System.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
